

Cartridge canister filter – CCF SERIES

PRODUCT DESIGN :

カートリッジキャニスターフィルターは、スプレー塗装システムで使用するために特別に設計されています。合成メディアプリーツは、高効率ろ過で低い圧力損失を提供し、徐々に構造化された深さは、高いメディア表面とダスト保持能力を提供します。

Cartridge canister filter are special designed for using with spray painting systems

Synthetic media pleating provides low pressure drop at high efficiency filtration, the

progressively structure depth providing high media surface and dust holding capacity.

PRODUCT DESCRIPTION :

- High dust holding capacity and special media coating 100% moisture resistance.
- Low pressure drop for saving of energy-cost due to a solid stability of the filter media
- Progressive density structure of the media for extremely long service life,
- F1-DIN 53438 Fire-retardant

APPLICATIONS :

スプレー塗装プラント、発電所のガスタービン、大容量ダスト負荷に使用塗料生産ライン、金属、木材、紙、ショットプラスト、鉱業など。

Using for spray painting plants, Gas turbines in power plants, High capacity dust load paint production line, Metal, Wood, Paper, Shot blasting, Mining industry or other.

PERFORMANCE :

MODEL	EU Class	Average efficiency	Dimension	Air Capacity	Pressure Drop	Final Pressure
	EN 779	% Removal	ODxDxH (mm)	CMM	Pa	Pa
CCF – 325660M6	M6	52.81%	325 x 210 x 660	56	105	800
CCF – 325660F9	F9	96.33%	325 x 210 x 660	56	200	800
Polyester / Polyester		Excellent dust filtration with moisture resistance, Not using with chemical process.				
Polyester / PTFE Coating		Oil and water resistance, using with acid-alkaline or other chemical.				
Polyester / Antistatic-Aluminum Coating		Anti-Static coating include ground cable, Electric conductance (Silver coating)				

Custom dimension /or special PTFE are available on request.

SPECIFICATION :

Media	Polyester	Colour / Weight	White – 260 g/sqm
Tensile Strength	MD 1162 CD 708 N/5 cm	Using temperature	90°C Max.120°C
Regenerable	Yes	Incinerable	UL900 Class1 / F1-DIN 53438
